

April 7, 1976

SENATOR KELLY: Mr. President, I will relinquish my time to the Speaker.

SENATOR BURBACH: Mr. President, members of the Legislature. This motion was scheduled for tomorrow ... or for this afternoon. If you'll recall, each year we have six, seven or eight different motions recognizing certain phases of our operation, whether it be to recognize the fair and impartial treatment given to us by the news media, and that will be discussed some time just prior to adjournment, and then the other motions which we have. This is one also and Senator Wiltse was requested to present to this body about all bills in committee and on General File that they be called ... indefinitely postponed by an action of this body. So to ease your minds and mine that we do not consider anything else, closes the door on any other consideration, only on LB 202 the one which we could repeal that particular Section of the law we're discussing and would ease everyone's mind that this could not ... this would tie it down specifically even though our motion ties it down specifically, this is an extra lever to assure you that there will be no other discussion of other bills, other amendments and other ideas.

PRESIDENT: We have several lights on that were on while the other motion was pending. Senator.... I'd like to run down.... Senator Luedtke and Senator Murphy, did you wish to speak on this proposition?

SENATOR LUEDTKE: Yes, just to make sure....

PRESIDENT: Excuse me. Senator Barnett, on this proposition or the other? Senator Chambers and Senator Marvel, on this one or on the other? This one. Everybody.... Alright. Chair recognizes Senator Richard Lewis. His light is off. Senator Marvel. Oh, you want to raise a point of order. Yes sir.

SENATOR LUEDTKE: Mr. President, does this exclude LB 202? I didn't hear it when I heard it read.

PRESIDENT: Yes, yes.

SENATOR LUEDTKE: It does exclude 202, alright. Then you don't have to put my name on the list.

PRESIDENT: Fine, OK. Senator Marvel. Now we're talking about the motion to indefinitely postpone all pending bills.

SENATOR MARVEL: If I might ask Senator Burbach a couple questions I think they've been asked but I'd like to summarize it. Before I do this I'd like to make one other statement. There are being passed out to you sheets signed by Senator Carsten and myself analyzing the veto bills. May I assure you that as you watch my vote you will know this, the purpose of this correspondence is not to try to sway you in regard to the item veto, it's simply to give you information.

Senator Burbach, two questions before I would cast my vote to extend the session, which I vowed at one time I'd never do. The first one has to do with the fact ...
